Recently it was announced that the Prince of Wales would spend the Christmas holidays in Spain, and an interesting rumor cropped out with news of the impending visit. This was that the Prince might become betrothed to Princes Beatrice, the 17-year-old daughter of the King of Spain. The report, however, was denied at the time.

The Prince while in Spain is expected to visit Madrid, Granada, Seville, Cordoba, Malaga and Clibraltar.

WASHINGTON, Dec. 12. (P)-The mashing-row, Dec. 12. (P)—The first criminal proceeding growing out of the Senate investigation of naval oil leasing policies in the Harding administration will enter its last phase tomorrow with the beginning of arguments in the Fall-Doheny consultant with its Summary trial in the Fall-Doheny

Doheny, on the stand seven hours in his own desense, denied without equivocation, all charges of corrupt purpose or unpatriotic intent in his relationship with Fall. His act in extending the loan, he said, was a transaction based on forty years of frjendship which began in New Mexico when the two men were partners in a gold-prospecting venture. Fall did not take the stand. The trial began November 22 and more than sixty witnesses were called to present the involved story of the leasing negotiations between the time President Harding transferred the oil reserve from the Navy to the jurisdiction of the Interior Department, May 31, 1921, and the date of Fall's resignation from the Cabinet in March, 1923. TOKIO PAPER COMMENTS

ON WAR-SCARE TESTIMONY TOKIO, Dec. 12. (P)-The Toki newspapers in Japan, commentinevidence given at the trial of Ed. L. Doheny and Albert B. Fall

newspapers in Japan, commenting on evidence given at the trial of Edward L. Doheny and Albert B. Fall on charges of conspiracy in obtaining and granting government oil leases, says the testimony of Admiral Robison and others gives the Japanese food for thought.

"Since the lease was granted for the purpose of securing the Navy's oil supply for an emergency in the Pacific in the same year as the Washington conference, it now becomes plain that while the American government was anxiously trying to have world naval armaments limited, the American Navy was trying to have world naval armaments limited, the American Navy was trying to increase its strength in the form of an oil supply," says the paper.

"Whatever may be said of the Navy's position there's no denying the fact that America was guilty of double dealing in so far as the apirit in which the arms limitation conference was called, is concerned.

"Although Japan will not by any means change her attitude toward the limitation agreement it is now up to America to make clear her position especially as regards the meaning of the Pacific war peril as feared by American naval authorities.

#### **SMUGGLING** BY TOURISTS SHOWS GAIN

Dealers Say Widespread Activities of Travelers **Hurt Domestic Trade** 

BAN FRANCISCO, Dec. 12. (Exc sive)—Smuggling of jewelry into the United States by tourists has grown to such an extent that dealers' as-United States by tourists has grownto such an extent that dealers' associations now are assisting the customs service in finding the amateur
smugglers, it was learned today.
Members of the jewelry trade have
informed W. B. Hamilton, collector
of customs, that the smuggling operations of tourists are far heavier
than those of professional smugglers,
and more destructive to business.
"Travellers" said the collector,
"seem to have an insatiable desire
to cheat their government out of customs duties. The duty on cut stones
is 20 per cent, but the tourist who
buys jewelry abroad to smuggle it
home does not save this amount. He
is charged enough by the foreign
dealer to pay the salaries of agents
and runners. The American who secretly brings in foreign precious
stones does not gain much by the
transaction and runs the risk of discovery, with the accompanying confiscation of his purchase."

Figures compiled by the jewelers'
associations show that Americans
spend annually in France \$22,000,000 for articles which they might
purchase at home at a very slight
advance in cost, thus making it
cheaper in the long run to buy here
than to attempt to smuggle in articles bought abroad.

## Approved Gas **Appliances**

WHEN you buy a gas appliance make sure that it is properly designed to give the service for which it is intended.

Satisfactory service, regardless of the fuel used, depends upon thorough combustion.

Thorough combustion, in turn, depends upon properly designed appliances, properly adjusted.

Some gas appliances on the market are not properly adjusted to give satisfactory service.

To protect the public against improperly designed and inefficient gas appliances, the American Gas Association recently established a Laboratory for testing the design, efficiency and safety of gas appliances d

This Laboratory has the approval and support of the United States Bureau of Stan ards, United States Bureau of Mines and the United States Public Health Service.

The Laboratory has not yet had time to test every make of gas appliance, of course; but as a result of its work, the American Gas Association has set its seal of approval to date on 42 makes of ranges, 7 makes of space heaters, and 9 makes of flexible tubing

BRITISH SHIP'S CAPTAIN

OAKLAND, Dec. 12. (Exclusive)—
Because he is captain of a vessel sailing under British registry, Capt. Willism H. Thomas, 450 Bybil avenue,
San Leandro, was defiled the right to
become an American citizen. The
immigration laws forbid any mariner
sailing under another flag becoming
an American citizen. Capt. Thomas,
who was born in Wales fifty-one years
ago, has been living in the United
States since 1919. He is captain of
the steamer Robert Dollar, whose
home port is Vancouver, B. C.

#### A proven treatment for Coughs

WHEN you take PERTUS-SIN to relieve your cough, you are taking one of the most widely used and effective cough remedies, known to every practising physician and pharmacist. It is a most antifactory treatment

It is a most satisfactory treatment or all harmful coughs, because (1) quickly rollers the cough apame, ) it spotches the inflamed throat all branchist vissues, (3) it is abso-tially harmfloss and, (4) most firm toright armful or all, it helps Nature to come access to clear to the size

Safe for Every Cough

#### CHEMICAL CURES STUDIED

BERKELEY, Dec. 12. (Exclusive)-What is perhaps the first syst

under the Hooper Foundation, directed by Dr. E. L. Walker, specialist in tropical medicine.

At present, Dr. Walker states, there are no chemical treatments for bacterial diseases that are absolutely dependable, although several such as mercurochrome, acriffavine, and mercury and dye compositions, are valuable for local infections. It is questionable how far these can be used, however, he says.

"So far, the greatest use of the chemical agents has been for the control of diseases caused by protozoa, rather than bacteris, such as salvorsan for veneral diseases, and quining for malaris, according to the California physician, who says that scientific interest in chemicals as curatives has been sidetracked tempon rarily by the discovered uses and successful treatments through antitoxins.

"But at the present time, medicine has reached a seeming impasse in asserts.

## Storm Wrecks State Highway Between El Centro and San Diego

THE roadbed of the State highway between El Centro and San Diego was washed out in a dozen different places during the unusual storms of late last week, according to reports received from that region. In many ists were forced to abandon their cars and flee for their lives in the torrents that poured down from the mountains. At several points the rails and ties of the Arizona and San Diego Railway were left suspended was washed from beneath them. Photos on this page show havor wrought by the deluge. (Photos by Will N. Fox.)

#### HERE'S What They Say About MENTH-O-FOAM

"MENTH-O-FOAM is the most conve-tient shampoo I have ever used." MABEL NORMAND.

Gentlemen: I clean my hair every other Sunday and it takes about fifteen minutes from start to finish with MENTH-O-FOAM. Just before my hair is dry, my head is completely covered with little ring curls which, when they are combed out, make a beautiful wave. This wave is natural and has increased many times since I quit using water on my hair.

Dandruff, the worry of my life until just a short time ago, has completely gone and since I started using MENTH-O-FOAM I can see new life and lustre in my hair almost daily.

I have recommended MENTH-O-FOAM to all my friends.

MRS. WILMA PARKER.

MRS. WILMA PARKER, 4066 W. 28th St., Los Angeles.

Gentlemen: I have been using MENTH-O-FOAM ever since I opened my own permanent wave shop last year. For your information is is the finest hair cleanser I have ever found. One great advantage lies in the fact that it does away with the acid rinse, to which so many women object. I have several absolute cases where it stopped hair from falling out. I have found it very successful in treating all scalp disorders.

ders.

One of the most triking things about it is the fact that even though it isn't rinsed there is not the slightest sediment left in the hair. It is the only shampoo that can be done thoroughly in five minutes. I just can't say enough for MENTH-O-FOAM, but the fact that most of my entire clientale use it continually

Bincerely yours, MRS. ADA M. STACK, 113 No. Western Avenue.

I have been treating an extreme case of eczema of the scalp with MENTH-O-FOAM and wish you to know that it is the most successful method I have tried. MARINELLA SHOPS, 1743 So. Western Avenue BETTY OTIS.

INSTANT LABORATORIES, INC.,
Gentiemen: I have tested your shampoo MENTH-O-FOAM, and found it to work perfectly as you claim. After careful examination of the various elements in your product, I am convinced that regardless of the shampooing qualities you have an extremely antiseptic formula and, while not injurious in the least, it is very stimulating to the hair follicles. The ingredients in MENTH-O-FOAM have a great tendency toward giving natural life and lustre to the hair.

ural life and lustre to the bair.

Hoping this will serve to answer your inquiry, I am yours very truly, H. P. KAMMANN, M.D. 1124 Loew State Buildin

"I am troubled with asthma and have always dreaded to have my head shampooed with water as a cold invariably follows which ends in an attack of asthma. Since I have been using MENTH-O-FOAM I have had no colds.
"I am truly thankful to have found that which takes the place of water and which cleanses se thoroughly." FLORA HIBBARD. 948 Winfield St., Los Angele

"Will you kindly tell me if I can get our wonderful shampoo in London? It quite the best I have ever used."

"I tried your shampoo scarcely believ-ing in it. It proved even better than your statements." ALICE C. WADDELL, Yuma, Aris.

"I certainly like your shampoo. My scaip has such a clean feeling when I have finished." EVELYN H. ZIEGLER, Moneta, Calif.

delighted with MENTH-O-LOUISE KNUDSON,

"My hair, a natural golden, was almost black from excessive oil caused by a three years' iliness. Have used two bot-tles of MENTH-O-FOAM and my hair is almost back to its natural color and is growing faster. Can't say enough for MENTH-O-FOAM."

MRS. EDW. KENDALL, 649 N. Madison, Los Angeles

"Used MENTH-O-FOAM twice and it had checked m; badly falling hair by half." MRS. MARTHA MATSON,

## "CLEAN HAIR is KEYNOTE of HAIR BEAUTY"

Says Sayde Nathan, Beauty Expert of the Motion Picture Colony

Gloriously Clean Hair Can Be Had by Anyone in Five Minutes with MENTH-O-FOAM

The whirl of joyous parties, luncheons and teas is now in full holiday swing. It is the one season of the year when everyone must look fresh, buoyant and beautiful at almost all hours of the day. It is at just such a time that Menth-O-Foam is most valuable. It is so convenient to use so quick in its application and so stimulating to the scalp. But best of all it leaves the hair glorious—all the natural lights, all the natural wave and fluffiness are immediately brought out. Sayde Nathan, the beauty specialist of the Motion Picture Colony, says, "Menth-O-Foam seems to give renewed life. I have noted too, that after Menth-O-Foam there seems to be twice

as much hair as before. My twenty-two operators use it under all conditions but most successfully when setting a finger wave. It has really supplanted water in the art of shadow waving. I know of nothing I can recommend for such universal

Finger waving with Menth-O-Foam is so easy that almost anyone can train a natural wave. Hundreds of women have discovered how easy it is to freshen the entire appearance in five minutes giving themselve Foam Shampoo and then just pressing in a wave with their fingers while the hair is still damp. Menth-O-Foam is safe to use just before going out. No one ever caught cold using it. And too, some extremely severe tests have been made in this direction.

The coupon below will bring you detailed information concerning this great natural beauty aid. Also a folder showing pictorally how you can train a natural wave.

Over two thousand test shampoos have been made with Menth-O-Foam on as many different kinds of hair and not one of these was unsuccessful. It has been tried for years. It is certain that there is no more antiseptic or a safer shampoo for fastidious women.

At All Druggists

MEN--here's news

for you

Any man in the world can shampoo his hair to perfect cleanliness in five minutes while he shaves in the morning. The result will be the cleanest feeling you have ever had. And any symptoms of dandruff will just seem to dissolve. Make MENTH-O-FOAM part of your morning bath and you will know a new vigor in starting the day's work. Try it tomorrow morning and you will see for yourself.

able if provision was made for the opening of Baldwin avenue.

"No objections were ever raised," Mr. Multer set forth in a signed statement, "until I got the deeds ectually signed and then two members of our Council suddenly attempted to block their acceptance after having signed a letter saying they would accept them."

At the last meeting of the board, final action on acceptance of the deeds was held up by a split vote.

"The time has now strived," Multers statement concludes, "when the statement concludes, "when the rest of the standpoint of their benefit to the general public and not as to their effect on the wholly selfash interests of a few persons.

"A stranger, attending the last session of our City Council, might casily have mistaken it for a meeting of the Huntington Drive Improvement Association. I am, therefore, asking the public of Arcadis to attend the next meeting of our City Council, wednesday, the 15th inst. to enable us to get as large an expression of public opinion as possible and I will tell you, if it becomes necessary at this meeting, exactly what the real motive is back of this whole will be taken, which will settle this matter definitely.

PASADENA, Dec. 12.—Pasadena is going ahead with the sale of its two-thirds share of the 600-acre tri-city farm in Monterey Park, despite the refusal of South Pasadena, which owns a one-sixth interest, to accept

#### POLICE CHIEF NOW TREASURER OF CITY

SAN BERNARDINO, Dec. 12.—Apsucceed A. A. Burcham, who was yes-terday named City Treasurer to fill the vacancy caused by the death of wilford A. Boren, will be announced Monday night by Mayor Grant Hol-comb.

Burcham, Chief of Police for the

comb.

Burcham, Chief of Police for the past seven years, resigned today to accept appointment to the Treasurer's office and W. H. Baldwin, veteran police officer, was named acting Chief. Treasurer Boren died Tues-

PASADENA, Dec. 12.—Pasadena is going ahead with the sale of its two-thirds share of the 600-acre tri-city farm in Monterey Park, despite the refusal of South Pasadena, which owns a one-sixth interest, to accept the bid of \$1010 an acre made by N. W. Milligan for a los Angeles syndicate of subdividers.

Alhambra, which owns the other sixth of the property, is expected to sell its interest also, leaving South Pasadena out of the transaction. Deputy City Attorney Stochr of Pasadena is drawing up the contract and the sale is expected to go into escrow in a few days.

Milligan has stated that the syndicate is willing to buy all or part of the property, according to the City Attorney's office and it has been suggested that this action may force South Pasadena to become a direct partner of the suddividing operations.

contentent Leslie I. Harris of the Chamber of Commerce and others rouninent in the city were guests of Secretary R. H. Mack of the Chamber of Commerce at a dinner at the browhead Springs Hotel, Saturday wening, to welcome H. M. Nickerson, he new manager. Mr. Nickerson formerly was manager of the Botel aryland, Pasadens.

Plans are under discussion for congenity was manager ment for properties of San Bernardino and the Arrowhead Springs management for protein the state of the University Club here tomorrow evening. He will discuss "The Romance in the Motion-Picture Industries."

COMPLETE BOULEVARD WALNUT PARK, Dec. 12.—One of the most important boulevards to be completed in this community is announced this week, with the finishing of the newly laid concrete paying on Santa Pe and Independence from Piorence avenue to Long Beach Boulevard and the removal of the University Club here tomorrow evening. He will discuss "The Romance in the Motion-Picture Industries." COMPLETE BOULEVARD

When the mational champing are will be materially revised to the first of the first

Now that the all-something or other teams all seem to have been picked we are willing to let the wide world know what we think about some of the players we've seen this year. We don't make any claims to authority and we're willing to admit that some of the players whom we have seen

ciaims to authority and were willing to admit that some of the players whom we have seen only once this year may have played a particularly good game the day we saw them—or vice versa. However, that is their fault and not ours, although it probably would have been but fair to warn them that we were watching their every move with our well, but none too favorably, known telescope.

Well to begin with, we didn't see a really top notch all around end all year. At times Badgro of U.S.C., Teachout of Oxy, and Shipkey of Stanford, looked like the world's greatest offensive ends. Teachout was also great defensively in streaks and Badgro looked good most of the time, although he owes no small share of his defensive reputation to playing alongside Hibbs. Godet of Oxy was the outstanding defensive end we saw. They may Shipkey and Walkee of Stanford played marvelously up North but we didn't see them.

Of all the tackles we saw in

velously up North but we didn't see them.

Of all the tackles we saw in action, Hibbs of U.S.C., Sellman of Stanford, and Hermahalch of Pomona, made the biggest impression. Conde of Oxy, and Hudson of U.C.L.A. also looked good at times. Hibbs was by far the best tackle we saw all year. In the guard positions Swan of Stanford, and Gorrell of U.S.C. were head and shoulders over all competition. They played a different type of game but each was a star in his own particular line. Taylor of U.S.C. was a shining light at times offensively

Cravath of U.S.C. was the outstanding center we gared upon despite the fact that he was considerably outshone by McCreery of Stanford in the big game between the two schools. Cravath was a star on offense and defense and his roving game was great, particularly in the Notre Dame combat. Boeringer of Notre Dame was a truly great center but certainly wasn't as conspicuous as Cravath. Tord of Whittier was a good center among Conference teams as was Archibald of Pomona.

Among the backs there was very little to choose between local signal callers. Eliey of Notre Dame was a genuine star and Post of Stanford called them pretty consistently. Very few of the local quarterbacks displayed any startling intelligence and perhaps Denny of Whittier was the best of the lot with the rest just about as good at times. The best fullback we saw was, of course, O'Boyle of Notre Dame, with Hoffman of Stanford a good second. The best of the local lot was Fusco of Oxy.

Among ball-carriers, as half-backs are usually called, there were more good men this year than we've ere seen in a single season. Flanagan of Notre Dame was very fine and Bogue and Hyland of Stanford in flashes were excellent. Of the local players we thought that Laranata was about the best all around man with Harold Merritt of Ponoma, Fleming of U.C.L.A., Mishkin of Oxy, Williams and Kaer of U.S.C., and Pendleton of Whittier right along with him.

We apologize to Pox Stanton, we didn't see his team, among others.

Gold Circle Consolidated Mines Company, operating near Midsa, announces it has added the Noble group, formerly worked by the Tonoph Mining Company, to its extensive holdings. Erection of a large mill is proceeding rapidly, and the plant is scheduled to go into operation next March. The management states all the mines are responding with rich gold veins recently uncovered in the Hutchinson and Grant groups.

GLORIANA MINE TO

Alsaka and Arisona mining operator and capitalist, who were attracted to the Patagonis field by the renewal of mining activities in that field.

Big Jim Mine

Cuts Station

in Solid Ore

PATAGONIA (Ariz.) Dec. 12. (Exclusive)—After sinking for sixty feet in the Big Jim mine, a station is being cut in solid ore. The cre body being cut by the vertical shaft is known to have a dip, but its width thus far has not been demonstrated. Milling has only been on ore that is taken out in the course of development, but already is evidence that the milling plant is much too small for the output that will be known as soon as stoping is started.

An odd situation was developed by the Morrison Development Company of Los Angeles when it unwatered its main workings to the bottom of the 300-foot shaft. Copper in the water had destroyed every vestige of iron, leaving a sludge that contained a large percentage of copper.

The Duquesne property has been purchased by a Los Angeles syndicate and is to be opened up, with the expectation of shipping the orces, which will be company of oil a day from the Panhandle fields.

Most of this going to refineries in Northern Texas. It is expected that the heavy traffic in oil will continue and situation of the Texas Railroad Commission reveal that the Atchison, To-per and copper.

WASCO, Dec. 12. (Exclusive)-The Gilmore Oil Company has taken twenty acres in the Goose Lake region, southwest of here. The property is owned by Russell A. Cran-BAKERSFIELD, Dec. 12. (Exclusive)—H. C. Landu has purchased forty acres of prospective oil land on the west front of the Kern River fields, from Lida M. Donnelly. The tract is the southeast quarter of the southwest quarter of the southwest quarter of Section 2, 28-27. The consideration is not known.

Since 1918 the property has been held under lease by the Standard Oil Company. The company drilled one well on the holding and later abandoned it. During the seven years the Standard was granted one extension of time before the first well was drilled, and eight subsequent extensions before it finally decided last September that it would not attempt drilling another hole.

George F. Getty, Inc., one of the most successful operators on the western front of the Kern River field. has begun two more wells on the Tegeler lease, Sec. 22, 25-27. Getty recently brought in a 300-barrel well in this district and he plans to push development of the lease as fast as possible.

### **Berlin City Electric Company**

Twenty-Five Year 61/2% Sinking Fund Debentures

To be dated December 1, 1926

To mature December 1, 1951

A substantial portion of this issue has been withdrawn for simultaneous offering in Europe by Mendelssohn & Co., Amsterdam, Nederlandsche Handel Maatschappij, Pierson & Co. and others.

To be authorized and issued \$20,000,000. Interest payable June 1 and December 1. Principal and interest payable in New York City at the principal office of Dilion, Read & Co., in United States gold coin of the present standard of weight and fineness, without deduction for any German taxes, past, present or future. Coupon debentures in denomination of \$1,000, registerable as to principal only. In addition to redemption at par for the sinking fund only, the debentures are redeemable as a whole, or in part by lot, on any interest date, on thirty days' notice, at 102\% and interest on or before December 1, 1931, and thereafter at 100 and interest. Central Union Trust Company of New York, American Trustee. Reichs-kredit-gesellschaft A. G., Berlin, German Trustee.

The Company agrees to provide a sinking fund, payable in equal semi-annual installments of approximately \$430,000, first payment June 1, 1929, sufficient to retire the entire issue by maturity by purchase at not over 100 and interest, or, if debentures are not so obtainable, by call by lot at that

The following information is summarized from a letter from Dr. Lange, Treasurer of the City of Berlin, and Dr. Kauffmann and Mr. Rehmer, managing directors of Berlin City Electric Company, Incorporated:

The City of Berlin owns all of the company's capital stock and has entered into an agreement with the company, extending beyond the maturity of the debentures, empowering the company to fix rates for the sale of electricity adequate to cover all operating expenses, interest and amortization of loans, depreciation and other proper reserves, and providing that, upon termination thereof, the city shall assume all obligations of the company, including interest and amortization of loans.

These debentures are listed on the Boston Stock Exchange and the company has agreed to make application to list them on the New York Stock Exchange.

Statements herein have been received parily by cable and are in no event to be construed as representations by us.

We offer these debentures for delivery it, when and as issued and accepted by m, and subject to approval of legal matters by our counsel. It is expected that delivery will be made on or about December 22, 1926, in the form of temporary debentures of the company or interim receipts of Dillon, Read & Co.

#### \$35,000,000

### Chile Copper Company

Twenty year Five Per Cent Gold Debentures

To be dated January 1, 1927

To mature January 1, 1947

THE NATIONAL CITY BANK OF NEW YORK QUARANTY TRUST COMPANY OF NEW YORK, Trustee

The following information has been summarized by Mr. John D. Ryan, Chairman of the board, and Mr. Cornelius F. Kelley, President of the company, from their letter to us regarding this issue:

The Chile Copper Company through the Chile Exploration Company, of which it owns all the capital stock, controls the largest known deposit of copper ore in the world. The deposit lies in close proximity to seaboard, thus permitting substantial economies in trans-portation. The occurrence of the ore deposit near the surface permits unusually economical mining operation by the use of electric shovels. The copper produced is of an exceptionally high quality and the cost of production is the lowest of any large-scale producer of copper in the world.

The properties are now producing at the approximate rate of 220,000,000 lbs. of copper per annum, but this production does not give effect to additional capacity about completed which it is estimated will increase the aggregate capacity to more than 375,000,000 lbs. based upon a capacity of 375,000,000 pounds of copper per year, the ore reserves, which have already been developed, are sufficient to last over seventy years.

The location and nature of the deposit, the character of the development and the economy of the operating methods utilized, comprise an exceptional combination of conditions which distinguish the entire property as one of the outstanding producers of copper in the world.

The proceeds of this issue of debentures will be applied to the redemption on April 1, 1927, of the existing 6% Convertible Collateral Trust Gold Bonds, Series A, now outstanding in the amount of \$34,990,500.

These debentures will be direct obligations of the company and will be issued under a trust agreement which, among other things, will provide (a) that the Company will not make any pledge of or create any lien or charge on any of the stocks or obligations of the Chile Exploration Company now or at any time owned by it without securing these debentures

equally and ratably therewith and (b) that the Company will not cause or permit the Chile Exploration Company to mortgage or pledge any of its fixed assets or the stocks of its subany of its fixed assets or the stocks of its sub-sidiary companies or to issue any bonds or other funded obligations unless all the evi-dences of debt or securities so secured or issued shall be acquired by the Company, except that additional property may be acquired subject to mortgages, indebtedness incurred in the usual course of business may be secured by pledge of personal property, and obligations may be incurred in the usual course of business, all as provided and defined in the Trust Agreement.

The Trust Agreement will provide for a sinking fund operating semi-annually after the first five years, which will retire all the debentures by maturity.

The average annual income available for interest and Federal taxes after depreciation for the three-year and nine-month period ended September 30, 1926, amounted to \$14,309,217 or 8.17 times the annual interest charges on these debentures. The additional development of the properties will increase the capacity to 375,000,000 lbs. of copper per year. Conservatively assuming an annual output of 360,000,000 lbs. of copper and a market price of 13c per pound, it is estimated that the income available for interest after Chilean and Federal taxes should amount to over 12 times the antaxes should amount to over 12 times the annual interest requirements on this entire issue

The equity behind the Company's funded debt is represented by 4,391,330 shares of capital stock, of a par value of \$25 a share, of which stock more than 50% is owned by the Anaconda Copper Mining Company. Divi-dends on this stock have been paid since March. 1923, at the annual rate of \$2.50 per share and present market quotations for this stock indicate a market equity of over \$150,000,000.

We offer these debentures, it, as and when issued to and received by us, subject to the approval by our counsel of all legal proceedings in connection therewith. It is anticipated that delivery of interim certificates will be made on or about December 28, 1926.

these bends are offered for delivery when, as and if issued and received by us, and subject to approve of counsel. Definitive Bonds will be ready for delivery on or about December 21, 1924. All maximum herein are official and are based on information which we regard as reliable, and while us do not guarantee them, we conjected have relied upon them in the purchase of this security.

#### WHAT'S DOING

#### **OLD GODS OF** ORIENT WIN MODERNIST

Bay City Chinese Goes to Grave With Ancient Rites of Far East

SAN FRANCISCO, Dec. 12. (Exclusive)—Loo Kum Shoo, in life the modernist of Chinatown, went to his grave today in the approved fashion

rave today in the approved fashion of oriental ancients.

A great roast pig simmered over soals in Portsmouth Square and the contents of giants dishes of Chinese delicacies were strewed on a board before his bier to ward off the evil spirit of ancestral belief. The "deck," shrill Chinese flute, was played, and symbals crashed. A Chinese high priest voiced final incantations.

The occidental touch was afforded by hundreds of Americans who marched with the codin as it began its journey to Colma for interment in a Chinese cometery. White-robed mourners were led by Chinese youths playing American band instruments. Loo's wish had been granted.

Loo was 62 years c. age when he died. He was among the first of his reac to attend an American college. Forty years ago he went to the University of California. He founded the world-noted Chinatown telephone exchange here, instructed his people in the use-of it and printed the first Chinese-American paper ever published. He had been manager of the Chinatown telephone system o

#### WORK ON PHOENIX MAIN LINE NEARLY FINISHED

Of 2695 Fasadens arenus, Anna Jensen, aged 57 years. Servines will be held Monday, December 13, at 10:20 a.m., from the chapel of the Jincoln Holghis Mortianty, 2012 Pasadens avenue. Informent, Ingiewed Fark Comptery, District Compter 15 and Dry, Forecast of 'Pussyfoot'

NEW YORK, Dec. 12. (A)—A European prohibition movement, dominant at the present, has a bright future; William E. (Pussyloot) Johnson said on his return here from a five months' campaign trip in Europe. He found prohibition progress in England, France and Greece to be slow. "Those countries have no time to think about prohibition, as they are confronted with other great national issues," he said. "They'll soon be able to think about it, and then they'll come around all right."
Mr. Johnson regarded New York's four-to-one wet vote in the recent referendum and the wet majority in other States as a victory for the dry cause. "We still have Congress with us," he asserted. "We have 311 votes of 435 in the House of Representatives and the Senate is overwhelmingly with us."

## Dies in Paris

PARIS, Dec. 12. (P)—Jean Richepin, widely known poet, playwright, novelist and journalist, died at his home here today. He was born in Medea, in Algeria. February 4, 1849. Much of his work was known in the United States and included a musical comedy, "Mademoiselle Napoleon," played in New York in 1903. He was a commander in the Legion of Honor and chancellor of the French Academy since 1923. Joe Gans vs. Russ Whalen

Spitfire VI Won with

## Union-ETHY

Winning 4 firsts and 2 seconds—1000 points—in the six heats, this remarkable speedboat won the National Motor Boat Championship held in San Diego Bay yesterday—using the new super fuel Union-Ethyl Gasoline.

The Famous \$6000 Elgin Trophy for the fastest time made was won by Spitfire V— also using Union Ethyl. Spitfire V set a new world's record of 47.05 miles per hour—made possible by the Union Ethyl shifting is necessary. This test will be conclusively to you that Union Ethyl conclusions are not conclusively to you that Union Ethyl conclusions are not conclusively to you that the same and you that the same are not conclusively the same and you that the same are not conclusively the same and you that the same are not conclusively the same and you that the same are not conclusively the same are not conclusively the same and you that the same are not conclusively the same are not concl Gasoline used in its motor.

Ethyl is the scientific motor fuel. 35,000 formulas were tested and discarded before scientists perfected the final product. Over ten years were spent in its development.

Ethyl has been used in every A. A. A. championship race for the past four years.

After extensive tests which they themselves made, Ethyl has been officially adopted by the U.S. Naval Air Forces, the U. S. Army and Navy Dirigible Service, the British Air Ministry and millions

Now it's available on the coast in a new Union service stations and the best super-fuel called Union-Ethyl. Try it today! of independent dealers sell Union-

conclusively to you that Union-Eu, a super-fuel.

### Don't Delay

You have in store for you a brand experience in the use of this superior Don't let it pass. Don't delay it. It let others tell you what you're missing Union-Ethyl gasoline.

Let your motor feel it. Feel it round through the throttle and steering and in new power, speed and smoothness

Make a ten gallon test today. All la

### What It Does

Union-Ethyl takes out all carbon knocks and actually turns carbon into power. It reduces vibration, makes much gear shifting unnecessary, provides a quicker pick-up and safeguards your motor.

residence here, represented to the girl and her family that he was an "automobile promoter" and had just returned from a trip around the world. Meanwhile he was living a leisurely life at an expensive hotel, first meeting the girl at a banquet where she appeared as pisnist. Despite failure to reveal any local business connections of Murphy police were today making a careful check to learn whether the man had returned to Prestno when he field from Long Beach after the attack upon his bride. Postoffice attaches reported he had discontinued rental of a box listed on marriage license records at the recorder's office. The marriage license was issues November 12, Murphy giving his age as 34. His father, according to the record, is Robert M. Murphy of Chicago. Murphy declared he was single and had not been married before. The couple were married November 17, leaving immediately for a honeymoon in Southern California.

#### CITY TO GET VOCATIONAL CONVENTION

Announcement that the 1928 convention of the American Vocational Association would be held in Los Angeles has been received by Charles A. Cooks, manager of the convention department of the Chamber of Commercs. The information was received from the California delegation which has returned from the convention recently held in Louisville.

At the instigation of W. 8. Kienholz, director of vocational training for the Los Angeles city achools, the convention department of the chamber has been working to bring the convention to this city for the past two years. Mr. Cooks stated.

The delegation which went from California was compassed of Nicolas Riccardi, State Commissioner of Vocational Education; Ben Johnson, representing the University of California, Southern Branch; Al Tucker, president State Vocational Association; Vierling Kersey, assistant superintendent of schools of Los Angeles; Howard Campion of the Frank Wiggins Trade School and W. 8. Kienholz.

HE SAN GABRIEL DAM

To all those who, for various re To all those who, for various reasons, are imperiling a large portion of the richest area of Los Angeles county by delaying active construction work on the San Gebriel flood dam at the Forks site, The Times urgently commends the Safley-McGlashan report on the subject, of which significant portions were reproduced in yesterday's Times.

This is the report upon which were chiefly predicated the Federal permits granted the Los Angeles County Flood Control District to proceed with construcion work on the dam at the Forks, a against the Granite Dyke site urged by the city of Pasadena, Anthony Pratt of the Los Angeles Municipal League, Dr. Milbank Johnson of the California Taxpayers' As-

This report was written by F. J. Safley, hairman of the Federal commission named United States Geological Survey. Both men are highly qualified experts and both are absolutely neutral as concerns any personal partisanship for either side of the argument. Their whole job was to get at the

They found (1) that the agitation for the Granite Dyke site had its origin with a certain Pasadena element acting in bad faith in that they are simply trying to delay the building of any dam in the San Gabriel Canyon until Pasadena has estab would result in a saving of \$10,000,000 or any like sum's wholly erroneous; (4) that changing the site voted for by the people would be illegal; (5) that from the stand-point of safety, geological formation, avail-ability of materials and other prime factors the Forks site is preferable. They recom-mended, therefore, that the requisite per-mits be granted for the Flood Control Dis-trict to proceed at the Forks, which was

The maintenance of the permits was done without at the time making public the text of the report, probably because it was hoped that Federal sanction of the Forks site would end the controversy without embarrassing those who might in good faith which Coach Rockne was absent. Yet be insists that his being away had nothing to do with the results. He is too modest. A watch never runs very well without a main-spring:

Messrs. Safley and McGlashan declare their belief that the opposition to the Forks plan had its origin in the desire for delay, at any excuse, on the part of the Pasadena element, and in political enmity for Engineer Reagan, to accomplish whose removal, the report says, all sorts of "insidious propaganda" has vainly been resorted to.

It feels that there is no necessity for the present year and more will be added longer delaying the building of the San Gafrom time to time next year, according to briel dam at the site approved by the government, by the exp.rts and by the people.

Britain remains Brazil's largest creditor,

discrepance for the Constitution. The locked
floor is the answer of government to a defloor is the answer of gove trade than at the present time. Neither were our good offices more eagerly sought. The President is right. There is very little warrant for apprehension over an alleged international hatred of America. It upon whose estimates the case for Granite Dyke is predicated.

Safley-McGlashan report declares that the absurd and impossible. Then he would not fail to grab at the idea with both hands or, to preserve the lecaine imagery, fore-paws, and the thing would be clinched. Then, too, we should be afforded the deliration of the control of the con

Under the circumstances The Times feels that those who have honestly but mistakenly favored the Granite Dyke site can afford to withdraw their opposition in the light of demonstrated facts.

It feels that those who fav necessal and in Parell according to a record to the facts. It feels that those who, for personal and political reasons, are imperiling the property of thousands by their baseless opposition to prompt and adequate flood protection, should feel the weight of public opinion to a degree where they will be forced to subside.

It feels that those who, for personal and in Brazil, according to a recent report, is now about \$343,000,000, of which over \$100, ov

erament, by the exp.rts and by the people.

It feels that it will be a grave mistake to imperil the project by the present scheme for another long committee session conducted by the project's enemies.

It feels that it will be a grave mistake to imperil the project by the present scheme for another long committee session conducted by the project's enemies.

\$1,420,000,000. Most of the industrial inguage shows that the philosophers of all time have found the world to be overgowning and that the time for a little action has arrived.

Congress with 12,000 bills awaiting action. Neither were there 60,000 statutes and ordinance on the books. Montaigne never sealized how well off he was, but his language shows that the philosophers of all time have found the world to be overgownent.

Brasil are in coffee plantations and texperiments of both America and Britain in time have found the world to be overgownent.

business.

The Times has no advice to offer nor suggestions to make to women concerning competition for the motherhood prize, but it is to be hoped that the ministers will follow the example of Sam Jones, who, when offered \$5 by a gambler, took the money with the remark: "This money has served the devil long enough—now it shall serve God awhile."

The wealthy sportsman's bequest is only one of the many peculiar wills constantly being made by members of that type of humanity which considers life as a game, not to be taken too seriously, playing the "joker" as the last trump. Whatever form

not to be taken too seriously, playing the "joker" as the last trump. Whatever form the wills of such men take, it is one of the best tributes to constitutional government and organized society generally that a per-son can meet the angel of death with the assurance that his wishes concerning prop-

people did they have no laws at all than be compelled to face the prodigious number they had. And at that time there was no Congress with 12,000 bills awaiting action.

Have you seen the snow upon the Mountains when the valley's Starred with flowers.

When a sheen of gold and amaranth
Is flaming overhead?

Ne'er was told in song or story
Such an hour of waning glory
Of the smile of heaven beaming
Through the notches in the hills.

CRISIS FOR BRITAIN BY ALMA WHITAKER

as just happened to the British Empire. Wherever two or thr

is tried. Rule Britannia!

CHRISTMASTIDE In the dim East a star Shining so far and white, Glowing o'er Bethlehem's fold Where shepherds watched that night.

O'er the still world a voice Crying through dusk and wild, Leading the world to love— Voice of the biest Christ-child.

Came the Magi on that night, Journeying through desert sere To where the star shone bright On Him and His mother there.

Have you ever watched a sunset
Through the gorgeous
Chatsworth Hills,
When a fame of gold is flung
Across the west,
When young hearts are all aglow
With the joy young lovers know,
When an hour of dreamy slumber
Seems to hover o'er the world? And the world on this blessed day Heeds the message Jesus brings; Now we lay our hearts at His feet While the Christmas chorus sings.

NO WEAK SPOTS

ON ORPHEUM BILL

BY KATHERINE LIPKE

This week the Orpheum begins at the beginning and goes through to the end with practically no weak spots anywhere to be seen. There is humor a -pienty, siapatick, of course, but there are also music, drama and skilled dancing.

Drama really deserves first mention for Owen McGiveney does his famous quick-change interpretation of a scene from "Oliver Twist" in which he plays five characters at the same time. By the aid of transparent curtains the audience is permitted to view his many changes. With the exception of Fagan his impersonations are only fair, but characterization

Opers and Fine Arts Club and Mr.

L. E. Behymer, was attended by a large crowd of enthusiastic listentians. A large crowd of enthusiastic listentians are considered by a large crowd of enthusiastic listentians. The program of diversified selections exemplified well Mr. Gromak-ovsky's linguistic as well as his vocal attainments. A large number of operatic selections were included on the program, noteworthy among these being an aris from Verdi's Travista, and the "Prostechal Moy Syn." (Parewell My Syn.) from "Borts Godournoff," by Moussorgsky.

Mr. Gromakovsky's singing exhibited a voice of rich caliber and dramatic power, combined with musical feeling. His sustained tones were especially good, but at times his breathing was noticeable. His voice in short very commendable effects in absortions and wellow of the short very commendable effects in elsections. His selections were enthusiastically spepisuded, the audience, in fact, became so eager to convey its appreciation, that in two specific instanced during the rendition of one selection, the fusical effect was epoided by handelapping at a climatic point of the interpretation.

The Schubert number, "Der Wanderer," was beautifully expressive, and the old lith) and it is the state to the motion-picture star. Else Is Mont, his performed in an able manner with the drawing and little of the program the Bach Previous Andrews York." The other of both the audience in fact, and when York," the other of both the audience wouldn't be established without the audience in fact, became so eager to convey its appreciation, that in two specific instanced during the rendition of one selection, the fusion of the interpretation.

The Schubert number, "Der Wanderer," but the charmon have been such as the control of the interpretation, that in two specific instances during the rendition of one selection, the fusion of the proper selection that in the control of the control of the control of the interpretation, the music of the proper selection that is the proper selection that is the

Lillian Gish

preceded by an atmospheric prologue, being staged by Prank L. Newman, that will introduce, it is announced, many novel and original scenes never before seen on local stages.

Leo P. Forbstein, musical director, has been working for three weeks in all of his spare time on an appropriate score for the picture. His research for puritanical themes has covered the most extensive field he has ever had to work from in his career, according to Mr. Forbstein.

'CASTLES" OPENS FOR **MASON RUN** 

El Capitan Production Moves Downtown for Limited Time

All of the joy and romance of the fabled land of Latavia lived again last night. The musical comedy "Castles in the Air" opened its down-

"Castles in the Air" opened its downtown engagement at the Mason Theater after a run in Hollywood at the
El Capitan, at which house it had
its Pacific Coast premiere.
Playing to an enthusiastic and
well-crowded house, the piece was a
decided "hit" from the first curtain
to the last.
Notable among the changes in cast
and ensemble was that which presents Perry Askam in the role of
John Brown, "alias" the Prince of
Latavia. Mr. Askam possesses a voice
of rich quality. His interpretation
of his numbers is exceedingly good
and his performance in the role of
the lost prince is most convincing.
Juanits Wray plays a charming opposite as the romantic Evelyn Devine.
Foremost among the other members
of the cast were the comedy team

for moments of almost continual laughter.

Marie Wells was also commendable in her role of the opers singer.

With the exception of a few customary first-night waits the performance last night merited much praise. The voices were fresh and vibrant and the entire cast seemed imbued with a spirit of enthusiasm that reflected itself in the audience.

Still having the distinction of being the real "hit" number was the "Baby" song. The charming melody of the number combined with the litting rhythm and clever manipulation of the doll dancers brought numerous encores. "Lantern of Love" vied with "Baby" for first place.

The entire musical score to "Castles in the Air" is worthy of note. The numbers all possess a beauty of melody and a rhythmic swing that combine to make the show most enjoyable entertainment.
